Washing Instructions

FOR BEST RESULTS SELECT SERVICES IN NUMERICAL ORDER FROM 1 TO 8

1 TIRE CLEANER Spray Low Pressure TIRE CLEANER directly onto a wet, dry wheel. Allow to work 2-3 minutes then remove with High Pressure Soap.	5 HIGH PRESSURE RINSE Spray wheel firmly. Select HIGH PRESSURE SOAP. Move nozzle down top to bottom. Hold nozzle 6" from surface.
2 PRESOAK Cover entire vehicle from top to bottom using Low Pressure PRESOAK before using High Pressure Soap.	6 HIGH PRESSURE WAX Apply High Pressure WAX to entire vehicle from top to bottom. Please remove after application. Hold nozzle 6" from surface.
3 HIGH PRESSURE SOAP Spray wheel firmly. Wash entire vehicle using High Pressure SOAP. Hold nozzle 6" from surface.	7 SPOT FREE RINSE Rinse entire vehicle from top to bottom using Low Pressure SPOT FREE RINSE.
4 FOAM BRUSH Clean brush head with high pressure soap. Select FOAM BRUSH. Brush entire vehicle from top to bottom.	8 OFF Select OFF when finished cleaning vehicle or when necessary. Return nozzle to holder. Close cabinet to turn off the off power!
TIRE CLEANER CAUTION: PRECAUTION Tire Cleaner is For Tires Only. Use of Tire Cleaner on Any Other Parts of Vehicle Will Be At Your Own Risk. TIRE CLEANER IS SOLD FROM LEAVES.	SQUEEZE TRIGGER For maximum pressure squeeze trigger firmly. Para máxima presión comprimir de presión.

NO DETAILING Please, no detailing your vehicle while in the bay. Thank You.
NO LOITERING Please, no loitering. Thank you. Por favor, no loy en la baya mientras se lava el auto.

THANK YOU FOR YOUR BUSINESS
